EXECUTIVE PROFILE

I am a Software Engineering undergraduate with a strong interest in backend development, system design, and modern web technologies. I have hands-on experience building full-stack applications using Laravel, Next.js, React, and databases such as MySQL and PostgreSQL. I enjoy designing scalable backend systems, developing RESTful APIs, working with modern software architecture, and exploring AI/LLM technologies. I am a motivated and continuous learning developer who enjoys solving real-world problems and turning ideas into reliable software solutions.
